10th March 2027
14th April 2027
12th May 2027
9th June 2027
14th July 2027

What is an Educational Psychologist drop-in consultation?

The consultation will last approximately 45 minutes, they are:

- A way of listening to concerns and working through ideas together.
- A way of exploring what's going well and building on this.
- A way of developing an achievable plan to work towards your goals.

Would you like support, information or advice about:

- Playing with your child, such as developing sharing and turn-taking skills
- Supporting your child with big emotions
- Developing communication skills
- Looking after your own well-being
- Supporting your child's early learning through play

What else do I need to know?

The consultation will take place in a confidential space at the Family Hub. If it is possible to make alternative childcare arrangements while you attend the appointment this may help you talk more freely about your child.

Families can book directly with our Educational Psychology Admin team by calling 01942 486 238
